### IR ILLUMINATOR

This level are available. The higher level, the clearer view and the further distance.

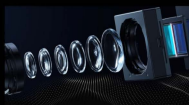

### 2K HD RESOLUTION

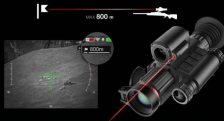

### HD NIGHT VISION LENS

Customized high-definition night vision lens, using ultra-fine lens polishing technology. Higher light transmittance than ordinary night vision lenses.

### LASER RANGE FINDER

### SUPPORTS CONNECTING MOBILE DEVICES

Connect your phone via WiFi. With an application for viewing videos and images captured by night vision devices in real time. Share beautiful moments with family and friends. The file is automatically saved to the memory card.

### TECHNICAL SPECIFICATIONS

Model	HT-70LRF
Dimensions	160x100x100mm
Net Weight	670g
Supporting Power	5V 500mA
Zoom	18000 FPS
Resolution	2K
Advanced Illumination	850nm/940nm
AI Illumination Distance	400m
Advanced F1.8 Light Aperture	2x
Resolution Accuracy	±1%
Light Transmittance Ratio	90%
Voltage	3.7V-4.2V
Battery	1800mAh
Battery Life	6h
Power Mode	850nm
Custom Mode	940nm
Color Temperature	4000K
Video Resolution	18000 FPS
Storage Type	TF card (max 512GB)

### INCLUDED ACCESSORIES
